## Discover The Power Of PeopleService

The people are the lifeblood of any community. Ensuring safe water and effective wastewater disposal is tantamount to the public's health. But where do you find professionals with the education, certification and experience to meet the needs of your community?

Look no further than PeopleService, Inc.

In more communities throughout the Midwest, PeopleService offers Operations, Maintenance and Management services for municipal and industrial water and wastewater facilities.

Even more importantly, we ensure that the people we send are assets to your community. And we support them – and you – in ways that ensure they're able to respond to changes in your community's needs – today, tomorrow, and always.

## The Best And The Brightest

As one of the leading contract operations companies, PeopleService is able to attract the best and the brightest our industry has to offer. From their specialty education and training, to their certifications and ongoing experience and knowledge-building – our people are truly second to none. It shows in the capabilities they bring to the communities they serve, with professional services that meet your obligations in such areas as:

- **Program Implementation** – Development, implementation and ongoing maintenance of water, wastewater and wastewater bio-solids programs.
- **Regulatory Compliance** – Prepare and submit the necessary reporting and documentation for regulatory requirements, Consumer Confidence Reports and permit renewals.
- **Safety** – Establish and implement proper safety practices.
- **Testing** – Establish and implement required water and wastewater testing practices.
- **Rates and Billing** – Ability to assist in developing and maintaining proper rates and provide billing for water and sewer services.
- **Planning** – Capital improvements assessment and O&M budgeting assistance.

## Our People Are Your People

With PeopleService, you're able to access the expertise you need through a single point of contact. So, you save yourself the costly and time-consuming task of personnel searches, contract negotiations and staffing issues. You also have the resources you need to accommodate vacations, other absences and even situations where added support is necessary – such as planning for and recovering from natural disasters.

What's more, our people go beyond contractual obligations to provide a level of service that is worthy of your investment:

- Improving the efficiencies and cost savings of operating your systems and programs.
- Implementing better safety and maintenance standards.
- Enhancing plant performance.
- Bringing valuable technical knowledge and expertise in process control

## Discover The Power Of People

For more than 15 years, PeopleService has built a reputation you can trust. We bring the extensive knowledge and specialized experience you need – along with your concerns for the environment and the safety of the people in your community. Day in and day out, we're with you every step of the way. That's the power of people. That's the power of PeopleService.
